

'Here We Are.'

Year 3 and 4 Homework Map for the Autumn Term 2020.

Please support your child to choose a minimum of four activities to complete at home over this term; of course they could complete more. There are 5 team points awarded for each tasks, please complete the tasks to a good level. Unfortunately due to Covid the children will not be able to bring their masterpieces in to school but to have a picture/video of them engaging in the homework and of course a picture of the finished products would be great. If we could receive all completed photos/videos by **Monday 23rd November** to Class 3 email - class3@uley.gloucs.sch.uk, and then we will share these throughout that week. Have fun!

History/English

Travel back in time to the Stone/Bronze/Iron age and write a story from a child's point of view – just like Glog.

Art, Design and Technology

Research Stonehenge and create your own 3d model of the historic site – this could be out of biscuits! Take a photo to bring in.

Values

Spiral of Hope
Start with a circle of paper or light card and draw a spiral. On the spiral write a hope or dream that you have that will make the world a safer, cleaner or a healthier place to live. Cut along the lines until you get to the centre, leaving a circle in the middle. Make a hole in the middle so you can hang your spiral from a thread.

Geography

Visit the local historical site, Uley Tumulus (also known as the Uley long Barrow) if it is safe to do so. Take pictures at the site and describe its appearance.

Be the best you can be

What would you like to achieve this year? Write down one goal and explain how you are going to achieve this goal. Who will be there to help you? What will you need to do to reach your goal?

Art, Design and Technology

Create your own cave art at home using natural resources – please check with your parents first and remember some plants may be dangerous!

Maths

Learn a new times table.

English

Write a list of 5 words that interest you or 5 words that are new you, linked to stone, bronze or iron age, to share in class. I wonder if anybody else will know them?

ICT

Choose your top 5 favourite places around Uley and take pictures of them. Explain why they are your favourite places.

Create your own piece of homework linked to the topic 'Here We Are.'

Science

Electricity – identify items that use electricity around the house. With help from your parents, recreate life without electricity – a power cut! What activities can, or can't you do?
You can travel back in time; you have the components to make an electrical circuit. Design an item using your circuit (e.g. a lamp or a head torch) and explain how it works.

RE

Create your own representation of the creation story.

Keeping Active
Design your own circuit training routine. Let's do it in PE time!

These tasks are to be completed in addition to regular **home reading** and spelling practise. The homework can also be supplemented with practising your Rainbow Maths and completing Mathletics tasks. All Rainbow Maths sheets can now be found on the school website or let us know if you would like a copy.
